SIGHT Scholar Report - ForeSee

June:

Develop app user interface on Figma

Final design:

Aternative designs:

Develop the normal user sides

First prototype of the functions:

Initial Implementation of the design:

Set up backend system on Firebase

Meeting with eye professionals

Meeting with Dr. Leonard Yuen, Dr. Alan Ng, Dr. Dexter Leung, Dr. Kenny Lai and Mr. Dick Lo for interviews and advice.

A sample form from Dr. Dick Lo as a template for the data input form.

July:

Develop professional side, improve normal side

Follow figma design for the user interface, experiment with different data input method(slider, number input box)

improved the user interface based on the suggestion received. Finish the connection of normal user and professional user, where professional users can view and add check up

records for the patients, create accounts for new patients or add the patient by scanning the QR code.

Design and implement visualization for Visual Acuity.

Design and implement in-app tutorial

Initial design of tutorial

Alternative design:

Open account for ForeSee on Facebook and Instagram

Design some content and schedule for social media to promote our app and share eye health information or fun facts.

August - September

Beta Test

We cooperate with Kelly from Parent Support Networks to organize a beta test from 10/8-26/8. 63 people registered for the beta test, approximate 26 users registered for an account and completed the post beta test questionnaire. 3 Zoom classes are arranged to the parents as a thank you gift. These Zoom classes included 2 STEAM classes(3D printing) on 29/8 and 5/9, and a Scratch workshop on 6/9.

Beta Test Poster:

Questionnaire for beta test registration:

Post Beta Test Questionnaire:

試用ForeSee手機應用程式意見調查(最後截止報名和填寫日期為4_9_2020_3P.M.)

感謝閣下參與是次試用計畫,這份問卷旨在了解閣下對本應用程式的意見。請就每項功能的實用性評分,1代表最不實用,5代表最實用。

STEAM Workshop:

Scratch Workshop:
